- **Identify** the types of pipeline emergencies of which the operator notifies the officials
- **Plan** how the operator and officials can engage in mutual assistance to minimize hazards to life or property

#### **First Responder**

- Where is the leak or response?
- Whom do we notify?
- Is there an immediate threat to life or property?
- Should emergency responders shut down the pipeline?
- Do we need to start an evacuation or other public protective action?
- Will other resources (local, state, federal, private industry) be required?
